Dear Mr. Levin,

Your principal is quite correct. I hadn't thought of your advertising the meeting, etc.

Should the trial include the day of 3/22, I will fly to the debate, then fly back. Especially because March 22 is a Friday would that be no problem at all.

I hope you will not run into any more problems. If you do, let me save you a little. There is no special delivery in the country. We get one delivery of mail a day. At that time what outgoing mail we have is collected. Unless I am able to make a special trip to town, my responses go out the next day.

With the Southern California climate, you have a few advantages over our local high school. It had a speech scheduled for Wednesday night. Snow forced cancellation.

Begining the middle of next week I will be away for about 18 days. I anticipate you will have no additional problems. However, should you write me, I will be in touch with my wife just about daily and I will get any message promptly.

I hope the rest of your preparations go smoothly.

Sincerely yours,

Harold Weisberg
